

MICRON CONTROL GAUGES & INSTRUMENTS

Thread Gauges, Pneumatic Gauges, Plain Plug Gauges, Snap Gauges, Measuring Pins (Loose & Set), Setting Master, Precision Taper Mandrills

& Other Special Gauges in CARBIDE & STEEL material as per requirement since last 16 years.

Standard

IS, ISO, ANSI, DIN

Special thread gauges

Forms like Buttress, Trapizoidal, ACME, Pg, BA, BSCY ,BS Cond.In single as well multi start can be manufactured.

Range of taper thread

NPT, NPTF, BSPT, NGT, DIN158 etc

Taper threads plug

Any kind of taper up to 1:8

Manufacturing range

1.3 to 360 mm

PLAIN PLUG GAUGES

Application

To check small & big bores

Gauging practice

As per IS 3455-1971

Plug gauges are supplied as per drawing

Manufacturing range

0.50 to 300mm

OD SETTING MASTERS

Application

For setting external diameter measuring instrument This eliminates cost of sleep gauge To set floating carriage diameter measuring machine while checking thread gauge Blank design as per IS 4349-1987

Manufacturing range

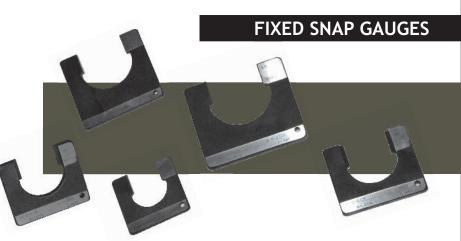

2.5 to 350mm

Application

To check external diameter/ Groove diameter, To check length of component Gauging Practice as per IS -3455-1971 Blank design as per IS 4583-1968 Special snap gauges as per drawing

Manufacturing range

2.5 to 400mm

MASTER SETTING RING GAUGES

MORSE TAPER PLUG / TAPER RING GAUGES

Application To check standard & non standard taper of bores & shafts **Manufacturing Reference IS 2251-1986** Manufacturing range Mt1 to MT6 & as per drawing

Application For setting internal diameter measuring instrument For use as Go /Nogo Ring Gauge Gauging Practice as per IS 3455-1971 / DIN2250C Blank design as per IS 3485-1983/DIN 2250C Manufacturing range 2 to 400mm

MEASURING PINS & PIN SETS

Application

To check small bores precisely. To check center distance between two holes Measuring pin sets supplied with knob & without knob as per requirement. Loose pins of standard size or of any odd size are also available as per requirement.

Manufacturing range

0.50 to 20 mm in step of 0.001,0.005, 0.010 & 0.020mm

TAPER MANDRILLS

Application

To check runout with respect to ID For Machining external diameter

Application

To check required depth/distance from required surface.

Manufactured as per drawing or designed as per

FLUSH PIN GAUGES

MICRON CONTROL GAUGES & INSTRUMENTS

We are a leading manufacturer of Gauges for the Industry with experience of over 20 years. Our gauges include Thread Gauges, Pneumatic Gauges, Plain Plug Gauges, Snap Gauges, Measuring Pins (Loose & Set), Setting Master, Precision Taper Mandrills & Other Special Gauges in CARBIDE & STEEL material as per the clients requirement since last 16 years.

INFRASTRUCTURE

We have our own manufacturing set up in pune (Hadapsar) with all types/ required machinery and Technicians/ Labour force. Presently, we are supplying our finished goods to various clients (in auto sector) & traders all over India.

MACHINERY USED

- UNIVERSAL CYLINDRICAL GRINDERS
- SURFACE GRINDING MACHINES
- •THREAD GRINDING MACHINES (MATRIX & LINDNER)
- CENTERLESS LAPPING MACHINES
- PENTAGRAPH MACHINES FOR ENGRAVING
- LATHE MACHINES
- HACKSAW MACHINES
- DRILL MACHINES

INSPECTION EQUIPMENTS

- •FLOATING CARRIAGES, LENGTH MEASURING M/C CAPACITY 3 to 350 mm,
- SLIP GAUGE BOX ,HEIGHT GAUGE,
- •MILEMASS DIALS (L.C.0.0005mm)
- •TRIMOS, MICROMÈTERS, VERNIERS
 •AC ROOM FOR FINAL INSPECTION
- ENVIRONMENTAL CONDITION 20°C
- •TRACEABILITY: REF. STANDARDS USED ARE CALIBRATED AT NABL LAB.
 •SUBZERO TREATMENT UNIT FOR DIMENSIONAL STABILITY

Can be manufactured suitable to your air gauge unit Air plugs are hard-chrome plated through hardened with hardness 900 to 1100 VPN Manufacturing range: - 4 to 200mm

Can be manufactured suitable to your air gauge unit Air ring are supplied in HCHC with hardness 60+/-2 HRC Manufacturing range 2 JET:- 6 to 140mm Manufacturing range 3 JET: - 8 to 80mm

MICRON CONTROL **GAUGES & INSTRUMENTS**

Works: Karne Bldg., 19/A, Near Shiv Mandir, Gondhale Nagar,

Hadapsar, Pune - 411028.
